

Let Administration Services Ltd manage your statistical exchanges - be they market trends, salary surveys, products or admissions and spend information - whatever your requirements, ASL can figure it out for you.

Independent and professional statistical exchange service.

The ultimate purpose of collecting data is to influence decisions - for reference or to illustrate an argument. Quality data can be assimilated quickly and accurately and therefore used with ease and confidence. Good statistical information enables participants to:

- ~ track markets
- ~ monitor trends
- ~ forecast market movements
- ~ identify potential opportunities
- ~ identify weak spots
- ~ measure the market size
- ~ identify market share

ASL collects and collates data as agreed by our clients, ensuring the legal requirements on disclosure are met, and distributes the results on a regular basis - monthly, quarterly, annually - you decide!

About ASL
